

## Environmental Policy

Harkness recognise that our business has an important role to play in protecting and enhancing the environment for future generations and to help secure the long-term sustainability of the company, our partners and the cinema industry.

To this end the Harkness Group of companies is committed to achieving sound environmental practices across our entire operation and producing an annual environmental plan setting out our Objectives, Targets and planned Actions. Our performance will be monitored and assessed on a regular basis and compared to our objectives and targets.

Harkness will continue to fully comply with all relevant local legislations and invite our customers, suppliers and contractors to participate in our efforts to protect the environment in order to minimize our waste and reduce our carbon footprint where possible.

With the aim of improving our environmental management system and environmental performance, Harkness will provide all employees with the training and resources required to meet our objectives and communicate openly our policies and practices to interested parties.
